SUMMARY

Junior Frontend Developer. On commercial projects I was the only frontend developer: catalogs, checkout, dashboards, and REST integration with React. Public apps below are there so the code can be opened. Looking for a junior React role, remote or in Ukraine.

SKILLS

Frontend: React, React Hooks, JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive layout, Next.js, React Router, Material UI, Tailwind CSS, Vite

Data: Redux Toolkit, RTK Query, REST API, Axios

Tools: Git, GitHub, Vercel, Jira, ClickUp

COMMERCIAL PROJECTS

Great Shop — clothing store Feb 2026 – Sep 2026
Commercial project · Frontend developer · private repository

- Built the product catalog with filters, a cart that stays between visits, and a multi-step checkout.
- Kept server data in RTK Query so lists and the cart update without a full reload.
- Organized the frontend by features and shipped it through Vercel.

Stack: Next.js, React, TypeScript, Redux Toolkit, RTK Query, Tailwind CSS

PUBLIC PROJECTS

Coffelane — coffee store May 2025 – Feb 2026
Frontend developer · Live · GitHub

- Built a responsive catalog with category filters, a cart that recalculates the total, and a checkout flow.
- Added registration, login, and an admin area for products, image upload, and orders.
- Connected the UI to a REST API with Axios and kept client state in Redux Toolkit.

Stack: React, Redux Toolkit, React Router, MUI, Axios, Vite

Multiwork — team platform Jul 2024 – May 2025
Frontend developer · GitHub

- Built screens to create projects, search people by skills, and put a team together.
- Implemented registration, login, password recovery, form validation, and protected routes.
- Sent and received data through a REST API with Axios and Redux Toolkit; added drag-and-drop and image crop.

Stack: React, Redux Toolkit, MUI, React Router, Axios

Audio Player Feb 2024 – Mar 2024
Frontend developer · Live · GitHub

- Built playback controls, track search, and playlist create / edit / delete.
- Reordered tracks with drag-and-drop and drew a visualizer with the Web Audio API.
- Added profile editing for avatar and account data.

Stack: React, Redux Toolkit, MUI, React Router, Web Audio API

BEFORE IT

2004–2022 — furniture design, then preschool teacher and kindergarten director, Kharkiv. Moved into frontend in 2023.

EDUCATION

A-Level Ukraine — Frontend & Web Development course, 2023–2024

LANGUAGES

Ukrainian — Native · English — B1 (Intermediate): I read documentation and write in English
