SUMMARY

Front-End Developer with a solid foundation in HTML, CSS, JavaScript, and React. Familiar with version control using GitHub, and skilled in creating responsive and cross-browser compatible layouts. Passionate about building user-friendly and visually appealing interfaces with a focus on enhancing user experience. Eager to join a collaborative team where I can continue learning, grow professionally, and contribute meaningfully to real-world projects.

TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frontend:** React, Redux Toolkit, Material-UI (MUI)
- **Backend/API:** REST API, Strapi (Headless CMS)
- **Tools:** GitHub, VS Code, Postman

PROJECTS

Multiwork (July 2024 – May 2025)

Developed a web application that connects specialists into teams to promote professional growth and collaboration.

- Built responsive user interfaces using React and Material-UI
- Managed global state with Redux Toolkit
- Integrated REST API for user registration, authentication, and project management
- Implemented features like user sign-up/login, creation projects
- Ensured a seamless user experience with form validation and error handling

Audio Player (February 2024 - March 2024)

Developed an interactive web application for playing audio files, optimized for desktop devices. The application has a modern and user-friendly interface created using React, Redux Toolkit, Material UI.

Key features include:

- Profile editing: users can add photos, change their nickname and password.
- Creating and editing playlists: the ability to create new playlists, edit them, add and delete tracks.
- Drag and drop tracks: implementation of drag-and-drop functionality to simplify track management in a playlist.
- Track search: built-in search for quickly finding the desired audio recordings.
- Playback of audio recordings: play, pause, go to the previous/next track and volume control functions.
- Audio visualizer: dynamic visualization of audio files during playback.
- Optimized for desktop versions: the application is adapted for use on desktop devices.
